Portfolio | GitHub | LinkedIn

Summary

Full Stack Developer with hands-on experience building scalable, responsive web applications and RESTful APIs. Proficient in React, Node.js, Express, and MongoDB, with a strong foundation in JavaScript and modern frontend development. Experienced in agile, cross-functional teams delivering features across e-commerce, AI-powered tools, and real-time applications. Passionate about user-centric design, clean code, and leveraging emerging technologies—including AI/LLM integration and cloud deployment—to solve real-world problems.

Work Experience

Software Developer Intern, Alienhouse Networks

Mar 2026 – Present

Remote

- Building an **intent-based dating app** with an AI-driven matching engine that parses user intent and preferences using NLP to deliver contextually relevant matches.
- Designing scalable RESTful APIs and backend architecture to support real-time interactions, user profiling, and personalization workflows.
- Integrating cloud services and CI/CD pipelines; collaborating in an agile sprint-based environment to ship features iteratively.

Frontend Developer Intern, Alienhouse Networks

Apr 2025 – Sep 2025

Remote

- Developed responsive, component-based UIs for an **EV parts e-commerce platform** using React, improving page load performance and cross-device usability.
- Built and integrated frontend features for a **multiplayer browser game**, implementing real-time state sync and interactive game logic using JavaScript and WebSockets.
- Collaborated with UI/UX and backend teams in an agile workflow; conducted code reviews and applied performance optimizations to reduce render latency.

Projects

AI Resume Analyzer | *React, Node.js, Express, OpenAI API, PDF Parsing*

- Built an AI-powered resume analysis tool leveraging OpenAI's LLM to extract insights, score resume quality, and generate actionable improvement suggestions.
- **Live:** View **Code:** GitHub

WhatsApp Food Ordering Bot | *Node.js, Express, n8n, REST APIs, Automation*

- Designed and deployed a WhatsApp chatbot for end-to-end food ordering, integrating third-party APIs and n8n automation workflows for seamless order management.
- **Code:** GitHub

Simon Says Game | *JavaScript, HTML, CSS, DOM Manipulation*

- Developed a browser-based memory game with progressive difficulty, event-driven logic, and smooth UI animations demonstrating core JavaScript proficiency.
- **Live:** View **Code:** GitHub

Technical Skills

Languages: Java, JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, EJS, Bootstrap, REST APIs

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Render, VS Code, n8n, CI/CD, Agile/Scrum

Concepts: Data Structures & Algorithms, OOP, Responsive Design, WebSockets, LLM Integration

Education

B.Tech, Computer Science and Engineering | CGPA: 8.6

2022 – 2026

Maharshi Dayanand University (MDU), Rohtak

Senior Secondary (XII) | 94.8%

2022

Delhi Public School, Mathura Road

High School (X) | 93.4%

2020

DAV Public School, Sector-49, Faridabad
